The Mayors of East Chicago, Gary, Hammond, Portage and Whiting have hired the consultant team of JJR to assist in planning for the future of Northwest Indiana's lakefront. **BUT WE NEED YOUR HELP.**

The goal of this Open House is to gather feedback about alternative plans for the waterfront through conversation. Feedback that is provided at the Open House will assist in drafting recommendations for The Marquette Greenway Plan.

The purpose of the Marquette Greenway Plan is to develop a comprehensive master plan for the Lake Michigan shoreline, from the Illinois state line to the eastern boundary of Portage with emphasis on recapturing 75% of the shoreline for public recreational access and creating a continuous bicycle/pedestrian trail contiguous to the shoreline to the greatest extent possible.
